Transitioned from Legal Practice to Consulting Company to Software Company. Goldson and Radin, served as General Counsel to the Long Island Board of Realtors® and specialized in meeting the legal needs of Real Estate Trade Associations and their members. As Association Counsel he supervised and wrote Findings of Fact and Conclusions” for over 500 Arbitration and Professional Standards proceedings. From 1991 to 1997, he developed a Centrally-Coordinated Legal Plan and Total Risk Management System that was marketed by Homeowners Group, Inc. (along with an Errors and Omissions Insurance Policy underwritten by A.I.G. and administered by Willis) to over 20,000 member real estate offices and 200,000 agents handling 25% of the national volume of residential real estate.

This insurance and risk management program led to the development of a collaborative claim/ legal management system that was first used to manage over 6,500 Realtor® E&O claims with lawyers (many of whom were prominent Realtor® Association Counsel) in 48 states. This system, in various iterations, has been used to manage, in the aggregate, over 50,000 healthcare professional liability claims with ten different medical malpractice insurance companies (including Florida Physicians Insurance Company, The Dentists Insurance Company, Podiatry Insurance Company, Medical Malpractice Insurance Pool, etc.), reducing the aggregate claim expense and indemnity payments by over 30%. This system is also used by Liberty to design and implement technology-enabled Legal and Alternative Dispute Resolution (ADR) management programs that are the subject of intellectual property development joint ventures with several innovative insurance, health care, technology and legal/ dispute resolution professionals.

One such joint venture is Never Start Again - Network Management Organization (www.neverstartagain.com), a membership organization that coordinates “Managed Joint Ventures”
