I started working with families over 8 years ago and have been with FTF for about 8 years.

At FTF we educate individuals and families on the importance of family while peeling back the layers so that individuals can heal, find joy, and live more productive lives. They do this by gaining knowledge about themselves and others.

It's all about giving people the tools needed for health. We teach how men and women are different and we try to bridge the gap in communication. We have so many fun experiences for people to learn and have fun. Whether you are single, dating, married, a parent, expecting, engaged, or a teen, there is something for you there.
