Secure Payment Processing for Law Firms

LexCharge, a leading payment processor for law firms, combines deep, market-leading experience in both credit card processing and the business side of running a law firm. We are experts in security and software, and our team has worked with thousands of merchants and law firms to reduce credit card fees, boost revenues, and improve collections.

Key features of LexCharge

Trust Accounting & IOLTA Compliance: Law firms have to know what they're doing when it comes to accepting trust payments. Our payment processing solution ensures that no processing fees will ever come out of your trust account.

Faster Funding: Not only does LexCharge completely comply with trust accounting rules, we will also fund your trust account within 12 hours, much faster than LawPay or any other competitor.

Payment Plans: Payment plans are perfect for any practice areas where clients can't pay a large balance at once. LexCharge offers an easy way to automate payment plans for law firms.

Recurring Payments: Looking for a way to implement your alternative fee arrangements? LexCharge can set you up with automated recurring billing. Establish your monthly fee, and LexCharge will collect funds from your client each month without your having to do a thing.

Integration with Rocket Matter: Our integration partner, Rocket Matter, was founded in 2008 as the first cloud-based legal practice management software. They have been a leader in the industry ever since. Rocket Matter makes it a breeze to run all your invoices at once, send them electronically to your clients, and collect payments online. In other words, it makes billing and collections easier than ever before. What's more, your revenues will skyrocket!

Some Other Benefits of LexCharge

We guarantee the best rates.

LexCharge will beat competitor fees—guaranteed! Send us your statement, and we'll tell you how much you'll save by switching.

It's easy to make the switch.

If you're already using a payment processor but want a change, switching is not difficult. In most cases, there is no fee to switch, and you just have to fill out a brief application. Why not start saving money today for your law firm? It is a much better investment to spend your money on improving your firm's profitability instead of wasting money on the high and hidden costs of your credit card processing fees.

We are here to help.

Once you learn how to use payment processing in your practice, you'll be amazed that you ever lived without it. We at LexCharge are here to walk you through every step of the way. You'll not only make collections a whole lot easier, but you'll bring in more revenue.

Top Reasons You Should Consider Payment Processing with LexCharge

Since 1974, The American Bar Association has approved attorneys accepting credit card payments for their fees!

We live in a near-cashless society where people pay for everything with credit cards. They have come to expect it.

Most of the time, if people aren't paying with a credit card or a technology that involves a routing number, they pay with online billing.

With credit cards, you don't have to wait around for a check or chase down money after you invoice a client—you receive the money within 12 hours, which opens up cash flow for your business.
