Mission and Purpose: To show people with disputes of many different types that there is a method to get resolution of their problems in a way they did not think was available and possible. Mediation creates opportunities for agreement. That's the beauty of mediation. It works!!!

It saves court and attorney time and expense. It helps people with their problems –health care disputes, family relationships, property damage, and insurance claims.

As a Licensed Health Care Risk Manager, a health care provider, hospital staff member for many years, I help reduce risk and prevent health related problems in health care facilities such as physician and dental offices, clinics, hospitals as well as assisted living facilities and nursing homes. This is especially effective for our elder family members.

Other areas I can mediate include the following:
