

David Atkinson with Black Box Recovery

Operations Manager Black Box Recovery - North America's Only Independent Accident and
Crash Data Laboratory
Edmond, Oklahoma

Black Box Recovery Institute of Police Technology and Management

After years of experience working as an adjuster and accident reconstruction aid I combined my long-term passion for vehicle "Black Boxes" to create a platform for economically feasible crash data recovery.

Our operation is unique, and one of a kind in the industry!

Operating as the only independent lab, centrally headquartered in Edmond, we offer a full line of Electronic Data Recorder retrieval services at turn-key prices. With our military and oil field experience we expect success with every challenge we accept, and have the drive to accomplish the goal with more speed and efficiency than our competition.

We operate with technicians and technology to streamline the data retrieval process and keep costs low. Integrity, Security, Safety and Speed are our core goals that provide the stability and credibility we all seek in the online world.

Experience

- **Operations Manager**

Box Recovery

2017 – Present

Employment Duration 1 yr 4 mos

Black Box Recovery is a service that will retrieve the crash data from the Event Data Recorder (EDR) on vehicles that have been involved in an accident. The valuable data contained on these devices is packaged and delivered to you for future litigation or accident reconstruction. We are an independent imaging lab, a full service "black box" provider and maintain extremely competitive rates.

Services include: Imaging of crash data from under the dash connections, fuse box access or direct to the box, from mailed in boxes, storage and security of your boxes, data securely stored and transmitted to you.
