## Rom

January 2013-Present

My duties

Rom is a digital marketing and web development agency based in Kenya. My duties include sourcing for clients, executing projects and creating innovative products targeted at our client base

## **Africa Rep.**

Africa Bitcoin Centre

July 2015- December 2016

My duties:

My cardinal role at ABC was to work closely with all key departments in drafting and implementing their strategic plans. This involved closely monitoring all the key departments within the organization to ensure we were making significant strides towards achieving our objectives. I was also responsible for identifying and recruiting key talent within the organization. This involved sourcing for the right human resource that would be critical in filling gaps within the organization.
